File: test_mismatch_invoice.pdf

Status: ⚠ Mismatch Detected

⚠ Mismatch detected - corrected fields provided

Reason for Mismatch:

The extracted values match the document, but there are mathematical inconsistencies. The line item calculations are correct, and their sum correctly yields the Subtotal of \$2450.00. However, the Tax Amount listed as \$500.00 is not 15% of the Subtotal ($\$2450.00 \times 0.15 = \367.50). Additionally, the sum of the Subtotal (\$2450.00) and the Tax Amount (\$500.00) from the document is \$2950.00, which does not equal the Total Amount of \$3000.00. For consistency, the 'corrected_fields' reflect a calculated Tax Amount of 15% of the Subtotal (\$367.50) and a Total Amount that is the sum of the Subtotal and this calculated Tax Amount (\$2817.50).
